REPORT NO.

1. The Zalaegerszeg Airfield is located east of the town and about 1 km away, in such a manner that the field is north and most of its buildings south of the Zalaegerszeg-Csacsobozsok road. Prevailing winds are from the northeast. It is about 1,500 by 1,000 m. In general the ground around it is open, but the Zala River is north of the field.
2. In front of the Maszovlet hangars there is a brief concrete apron. There is a radio and weather station, but no night flying or radar arrangements have been observed.
3. Maszovlet uses the field, and there are 10 to 12 YAK-9 planes of the Hungarian Air Force under the command of a first lieutenant.
